AIR QUALITY 'SEVERE'; AQI HITS 475

Delhi chokes on toxic air

ABHINAYA HARIGOVIND New Delhi, November 3

INDIA'S CAPITAL DELHI choked with 'severe' air quality for the second consecutive day on Friday, with the 24-hour average AQI (air quality index) hitting a high of 475 at 11 am before falling marginally to 468 at 4 pm and further to 456 at 5

The forecast indicates air quality is likely to remain 'severe' at least till Monday, with the Commission for Air Quality Management in National Capital Region and Adjoining Areas (CAQM) deciding to "watch the situation for a day or more, before invoking more stringent disruptive actions under Stage IV of GRAP (Graded Response Action Plan)".

The CAQM, which is a commission constituted by the Ministry of environment and forests, had invoked measures under Stage-III or the 'severe' category of the GRAP on Thursday. It, however, decided against invoking Stage-IV or the 'severe plus' category of GRAP on Friday since the average AQI of Delhi is "already showing a declining trend since afternoon".

Further, the CAQM said "it's only reasonable to give time" for the impact of measures under GRAP Stage-III to reflect on the average AQI.

A forecast issued by the Air Quality Early Warning System for Delhi, a project by the Indian Institute of Tropical Meteorology (IITM), said on Friday that the air quality is "likely to improve marginally but remain in the 'severe' category from November 4 to 6".

The forecast for the subsequent six days said that the air quality is likely to remain in the 'severe' to 'very poor' category.

Suspended pollutants kept the visibility low both on Thursday and Friday. At 7 am Friday, visibility at the Safdarjung weather station, the city's base observatory, was 600 metres,

Vehicles on the Delhi-Gurugram Expressway amid hazy weather conditions, in Gurugram on Friday.

while it was 500 metres at the airport at Palam.

The air quality was in the 'severe' category across parts of Haryana, UP and some parts of Rajasthan —Ghaziabad, Faridabad, Hisar, Jind, Noida, Greater Noida, Rohtak, Fatehabad, Bahadurgarh, Bhiwadi —as well on Friday.

Greater Noida was the most polluted city with an AQI of 494 at 4 pm. Calm conditions, with very slow winds, in Delhi, have been making it difficult for pol-

disperse. But the wind speed picked up marginallyon Friday

lutants to

evening.

"Calm conditions prevailed at the Safdarjung weather station on Friday. At Palam, a wind speed of 6-7 kmph was recorded in the evening, compared to lower wind speeds of around 3 kmph earlier in the day," said Kuldeep Srivastava, scientist, India Meteorological

Department (IMD). "Till at least November 5, calm conditions are likely to prevail at Safdarjung, while Palam could see northwesterly winds,"Srivastava said.

Northwesterly winds can carry stubble burning smoke from Punjab and Haryana into Delhi-NCR. The fire count in Punjab has been more than 1,000 over the past five days, and on Friday, it was as high as 1,551, according to data from the Indian Agricultural Research Institute (IARI). On

Delhi's worsening air quality this time coincides with the

October 27, it was 766.

The forecast indicates air quality is likely to remain 'severe' at least till Monday, with the Commission for Air Quality Management in NCR and Adjoining Areas deciding to watch the situation for a day or more

> burning is usually from around October 27 to November 7-10," said V K Sehgal, principal scientist, IARI. Data from the Central Pollution Control Board (CPCB) shows that the average AOI of 468 at 4 pm recorded on Friday is worse than what was recorded in November last year.

When Delhi sawa 'severe' air spell in November last year, the worst AQI that was recorded was 450 on November 3. On

that day, however, CAQM had directed implementation of all actions under GRAP Stage-IV since as per the forecast, the AQI was likely to be 'Severe/ Severe

+'over the next couple of days. In November 2021, Delhi saw a figure of 471 on November 12. In 2020, Delhi saw an AQI of 477 on November 9 and 476 on November 10.

On Thursday, the contribution of stubble burning to PM2.5 levels in Delhi was 25.23%, the highest it has been so far this season, and up from 18.31% on Wednesday, according to data from IITM's Decision Support System. The system estimated that the contribution on Friday is likely to be higher at around 35.42%.

The CPCB identified PM10 and PM2.5 as the primary pollutants in Delhi on Friday, and particulate matter levels across the city remained several times above the prescribed standard.

At the Dr Karni Singh Shooting Range in South Delhi, for instance, which was the most polluted spot in the city at 6 pm with an AQI of 489, PM10 levels hit a high of $738 \,\mu\text{g/m}3$ at 9am on Friday, which is more than seven times the national ambient air quality standard of $100 \,\mu\text{g/m}$ 3 for 24-hours.

महादेव ॲपकडून ५०८ कोटी मिळाल्याचा आरोप; चौकशीचीही शक्यता

पीटीआय, नवी दिल्ली

छत्तीसगडचे मुख्यमंत्री भूपेश बघेल यांनी महादेव ॲपकडून ५०८ कोटी मिळाल्याचा ईडीचा दावा स्पष्ट शब्दांमध्ये फेटाळून लावला.

राज्यामध्ये विधानसभा निवडणुकीसाठी पहिल्या टप्प्यात ७ नोव्हेंबरला मतदान होत आहे. त्याला काहीच दिवस उरले असताना, 'महादेव' या ऑनलाइन बेटिंग ॲपच्या प्रवर्तकांनी बघेल यांना आतापर्यंत ५०८ कोटी रुपये दिल्याचा दावा सक्तवसुली संचालनालयाने (ईडी) शुक्रवारी केला. तसेच हे प्रकरण चौकशीच्या कक्षेत येत असल्याचे सांगितले.

कथितरित्या पैसे पोहोचवणाऱ्याच्या जबाबावरून ईडीने हा दावा केला.

Works worth ₹600 crore for Vasai-Virar

FPJ NEWS SERVICE / MUMBAI

Union minister for highways and road transport Nitin Gadkari on Friday sanctioned works worth Rs600 crore in the constituency of Vasai-Virar MLA Hitendra Thakur. The MLA is the president of the Bahujan Vikas Aghadi (BVA) and brother of Bhai Thakur, an alleged don of the Vasai-Virar area.

Hitendra Thakur said he had constantly followed the matter with Gadkari and finally the minister approved the projects. Gadkari was in Vasai-Virar to attend a function recently by local political activists.

The projects widening the Mumbai-Ahmedabad highway from the existing eight lanes to 12 lanes of the 110km phase between Dahisar and Talasari, a 40-metre ring road within the Vasai corporation limits, and concretisation of the roads of five cities that connect from the highway among others. Gadkari also invited Hitendra Thakur to visit Delhi to discuss more infrastructure projects.

'The population of Vasai-Virar is increasing rapidly. As a result, the vehicular traffic is also increasing. Also, there has been a huge increase in traffic on the Mumbai-Ahmedabad high-

Considering all this, we had demanded that all the projects needed to be completed at the earliest. Finally, our efforts were successful. Work on the said projects would begin in a month," said Hitendra Thakur.

121 tankers to help settle city dust

In order to settle dust particles, the BMC has started cleaning and washing the footpaths and roads with a width of more than 60ft across the city. Around 121 tankers will be used daily to wash 650km of roads in non peak hours from 3am to 6am. As per a civic official, only treated water will be used for this work.

Following the directives of the chief minister Eknath Shinde, the civic administration has ordered the civic offi-

The BMC has also instructed vehicles carrying construction materials as well as debris to use cover and should be thoroughly cleaned after each consignment. Every vehicle should be equipped with a GPS system so that their movements can be monitored up-to-date. The civic authorities have also directed them to link the Vehicle Tracking and Monitoring System (VTMS) with the civic system.

Consultants to help ease traffic chaos

KALPESH MHAMUNKAR / MUMBAI

The BMC has issued tenders to appoint consultants who will provide suggestions to the civic body to ease traffic congestion in Mumbai. The consultants will be hired under the access control project. The work will be conducted on nine junctions of Eastern Express Highway and West-

ern Express Highway. There are 2,000km of roads in the city under the BMC jurisdiction. The civic body will phase-wise turn these routes into cement concrete (CC) roads. So far, the BMC has turned around 900km of routes into CC roads. More than 400km of roads will follow the same procedure; however. The main junctions of the city where traffic conges-

underpasses will be constructed at the Jogeshwari-Vikhroli link road, Powai junction and Chheda junction. Under the access control project, road widening and underpasses will be constructed near Sudhir Phadke flyover and Ville Parle Hanuman Mandir to Milan Subway. The tenders for this work will be issued next month. Additionally, u-turn flyovers will be constructed on Kanjurmarg for dumping ground trucks, Ghatkopar junction and Bandra Kurla Complex.

Matharpacady fights to save 16th-century settlement amid threat

MANOJ RAMAKRISHNAN / MUMBAI

Hundreds of citizens held a candlelight march on Friday evening along the lanes of Matharpacady, Mazgaon, an 'urban village', to protest against redevelopment plans that could obliterate the 16thcentury settlement.

The protest, which began with prayers at a chapel, made its way through lanes lined with cottages and buildings constructed in a mix of Indian and Portuguese styles.

A recent notification by the BMC threatens to bring the area under cluster development, which means that the entire precinct can be pulled down and replaced with skyscrapers.

Residents said that a construction company that bought development rights structures in the periphery of the precinct, plan to acquire buildings in Matharpacady so that they can convert the project into a cluster development.

'Under this provision, a builder gets more concessions in construction rules, but they need a plot of least 6,000 sq mt. They do not have sufficient area for cluster development and are now trying to buy houses on the boundaries," said Denis Baptista, a resident.

Matharpacady has been listed as a Grade III precinct under Mumbai's urban heritage laws. While the grading recognises the architectural and cultural heritage of the area, the lower grade listing provides the area with no pro-

Plan (DP) 2034, the planning blueprint for the next decade, allows buildings precincts listed under Grade III to be completely rebuilt. However, any changes in a graded precinct will need the approval of the Mumbai Heritage Conservation Committee, which also includes independent experts.

Residents said that they had objected to the DP 2034 after which the area was excluded from being pulled down for cluster development. People who want to pre-

serve the historically and architecturally unique locality said they came to know about the plans in September. They added that builders have been eyeing the precinct since 2010. 'We are particularly worried now because the builder claims to have a 'letter of intent' from the BMC to start the project, but we want to know if they have received the approval of the heritage committee," said another resi-

"The builders have reportedly done a survey of the precinct. I wonder how they could do that without consulting us," he said.

More ticket counters to ease queues at rly stations

To motivate staff, authorities have implemented an incentive system, recognising booking clerks with the highest ticket sales

KAMAL MISHRA / MUMBAI

The Central Railway's (CR) Mumbai division has decided to increase the number of unreserved counters to reduce the long queues at ticket windows. Beginning today, the division will operate more than 15% additional unreserved ticket counters in different

This initiative involves the operation of 11 extra ticket counters during varying shifts at Chhatrapati Shivaji Maharaj Terminus (CSMT) and Dadar, with an additional four counters at Byculla. Similarly, three additional counters will be operated at Diva and two at Kurla. Additional counters will be also operated on other stations according to the number of footfalls.

With this expansion, the division has increased the number of ticket counters from 691 to 803, with these 112 new counters set to commence operations this weekend. This expansion was conducted by adjusting the shifts of

current employees. The primary goal of this initiative is to minimise the queues in front of ticket windows, providing a more effi-

cient and convenient booking experience for passengers. To ensure the success of this endeavour, authorities have advised chief booking supervisors and relevant staff to maximise their efforts during peak hours," said a CR offi-

CSMT ticket booking counter

"A crucial aspect of this expansion involves reallocating staff from parcel and goods depots to booking counters, ensuring that a maximum number of shifts for unreserved ticket counters are available to the public. Shifts will not be closed without valid reasons and the prior permission of the competent authority, eliminating the premature closure of counters during peak hours," said senior divisional commercial

manager, Robin Kalia. Furthermore, to motivate staff, the Mumbai division implemented incentive system, recognising booking clerks with the highest ticket sales during the month with awards and appreciation letters. This initiative encourages employees to excel in their roles.

"The division has also taken steps to ensure the smooth functioning of ticket counters, providing sufficient printers and peripherals to all stations.

There are clear instructions to maintain equipment registers promptly address any issues. In cases requiring assistance, tne commerciai control and monitoring cell is readily

available," he said. "Efforts have been made to minimise equipment downtime, ensuring quick resolution of technical issues to

swiftly restore services. Regular meetings are organised with chief booking supervisors and chief commercial inspectors at the divisional level to address ground-level issues, and frequent station inspections are conducted by officers to maintain the efficiency of the booking offices," Kalia added.

Eat Right Millets Mela in Bhayandar by FDA

In an attempt to push forward their movement towards promoting the inclusion of millet in our daily meals owing to its health benefits, the Thane unit of the Food and Drug Administration (FDA) in association with the Mira Bhayandar Municipal Corporation (MBMC) organised a mega "Eat Right-Millets Mela" (fair) at the community hall in Bhayandar East on Friday.

A large number of women representing the women's self-help groups and

twin-city registered their ac tive participation in the faircum-training workshop.

Speakers and experts including assistant commissioner (food) Dhanshree Dhane, additional municipal commissioner Dr Sambhaji Panpatte, food safety officers Manek Jadhav, Bharat Vasave and PS Pawar, spoke at length about the importance of millets in our daily meals to prevent lifestyle non-communicable diseases such as hypertension, diabetes, obesity, improve cholesterol levels and

cular diseases.

The speakers also elaborated on the benefits of various millet varieties, such as Bajri millet). (sorghum), Rajgira (amareduce the risk of cardiovasranth millet) Nachani (red

millet), Bhagar (barnyard millet), Rala (foxtail millet), and their role in fostering a healthy lifestyle.

A Food Safety Training and Certification (FoSTaC) workshop to ensure compliance

iood industry was also con ducted by Megha Ghatge who is an official trainer empanelled with the Food Safety and Standard Authority of India (FSSAI). The training was followed by a walkathon in which the participants elaborated on the benefits of millets by chanting slogans and through the display of placards. Notably, the United Nations General Assembly has declared 2023 to be the "International Year of Millets" under which these events are being organised across the
